

# Cover-letter

## About Me:

I'm **Rohit Rajput** a **Prefinal year** student at **UIET, Panjab University**, pursuing my **BTech in Electronics and Communication Engineering**. I have immersed myself in the fascinating realm of **DevOps**, where I blend the latest technologies with seamless development and deployment methodologies.

My skill set encompasses **Linux, shell scripting, computer networking, Git, and GitHub**, forming the core foundation for building robust and scalable systems. In addition, I have a **strong grasp of continuous integration and continuous deployment practices**, utilizing **Docker, Jenkins, and Kubernetes** to automate the delivery pipeline. Furthermore, I possess a **comprehensive understanding of AWS**, enabling me to deploy secure and scalable solutions in the cloud environment.

While my primary focus lies in the field of DevOps, I also have **proficiency in C++,Python, HTML, CSS and JavaScript** allowing me to create captivating user experiences. During my leisure time, I enjoy immersing myself in the world of **Blender3D, where I craft mesmerizing 3D animations**, and I dabble in video editing to bring my creative visions to life.

In addition to my technical expertise, I possess **good communication skills** and **strong team management abilities**. I can effectively convey complex ideas, collaborate with diverse stakeholders, and motivate team members towards a common goal. With these skills, I am equipped to lead projects and **achieve outstanding results**.
